

Aidenosaurus Summercampus!

ALDEN MONTESSORI

DINO DAZE

May 30 - Aug 11, 2017

Aidenosaurus Summercampus!

Sign up by the week or the whole summer with ten weeks of incredible fun!

- May 30 - Jun 2: Dino Daze:** The children explore the world of the dinosaur!
- Jun 5 - 9: Diggin' Dinosaurs:** Our young paleontologists learn about fossils and how to excavate them.
- Jun 12 - 16: The Land Before Time:** They step back in time and experience an alien world full of volcanoes and high seas.
- Jun 19 - 23: Sharp Tooth!** We come face-to-face with the most ferocious meat-eating dinosaurs.
- Jun 26 - 30: Veggiesaurus:** Not all dinosaurs are dangerous and scary... Meet the ones that are as gentle as a cow.

Jul 3 - 7:

No School: Monday, July 3rd and Tuesday July 4th

Holiday Care Only: Wednesday, July 5th - Friday, July 6th.

8:30 - 12:00 (\$75) 8:30-3:00 (\$105) 7:00 - 6:00 (\$135)

- Jul 10 - 14: Keep One Eye On the Sky!** Soar the skies with giant-flying reptiles. These ancient flyers are the ancestors of our modern birds!
- Jul 17 -21: Sea Monsters:** The children will experience a whole new world beneath the waves.
- Jul 24-28: Manny and Friends:** Learn about furry prehistoric creatures and how they differ from dinosaurs.
- Jul 31-Aug 4: It Was Self Defense!** We will explore the many ways prehistoric animals protected themselves.
- Aug 7 - 11: End of Daze:** Our scholars contemplate the theories of why the dinosaurs became extinct.

May 30 - Aug 11: Summer Camp
Aug 14-18: Teacher Professional Development
No School or Child Care
Aug 21: First Day of 2017/18 Fall Semester

Amazing adventures await our young dinosaur lovers. Our eager students will enjoy many in-house presentations bringing to life our prehistoric past, delving deep into our dinosaur dig, and visits from the Bird Man and Critterman sharing creatures that evolved from dinosaurs. Kindergarten and Elementary students will venture off campus to explore museums, fossil hunting and summer fun!

Blast to the Past!

Our junior paleontologists at Alden Montessori will be exploring all the wonders of our prehistoric past. Their epic summer adventure begins with a daily walk through our **Jurassic jungle** exhibit. Students will come face-to-face with the mighty T-rex. The children will dig deep into history, biology, science and geology as well as super-sized fun with art, cooking, field trips and lots more!

History & Science

Children are fascinated by the past. To excite their inquisitive minds, they will have laboratory space where they will use the scientific method and various tools to explore the many facets of paleontology. Working in collaborative groups, excavating fossils, conducting a wide range of experiments and researching the Earth's amazing past, the children will be having a wonderful time that will make for an astonishing summer!

Montessori Academics

The Montessori experience is a unique, integrated curriculum that utilizes all the senses to make an active learning environment both fun and exciting. The Montessori student is naturally eager for knowledge and initiates their own learning in a supportive, thoughtfully prepared learning environment.

Fantastic Fossils!

Our students will dig deep into the study of fossils in our hands-on **Dino Dig**. They will get down and dirty learning how fossils were formed, how to excavate them, practice scientific safety procedures and most importantly, have fun! **All of our experiments are child-friendly and safe.**

Jurassic Art

Creativity abounds as the children draw, paint, sculpt and create amazing arts and crafts. The children's art, inspired by our past, will drive them to explore the many ways they can utilize their new found scientific knowledge into the creation of beautiful works of art.

Cretaceous Cooking

Our young scientist will have a great time making most delicious **treats**. A pinch of creativity and a dash of healthy fun will nurture a life-long love of cooking! The children will be creating amazing concoctions, bubbling and baking with delicious and tempting aromas! Brachiosaurus bites!

Active Bodies

The children are amazed by the dinosaur's body structure and movement. They will test how their bodies differ from those ancient creatures that walk, swim and fly. Our young paleontologists will have a blast as they become velociraptors, brachiosaurus, and pterodactyls!

Treks & Visitors

We welcome many special **guests** to our Aldenosaurus Summercampus. These exciting programs bring a smile to the faces of our young scientists. Our kindergarten and elementary students will also explore the era of dinosaurs with special **trips** off campus to enhance their studies.
